Many of the persistent challenges that humanity has faced during this period require continued attention, including combating climate change, preserving natural resources, fighting COVID-19, and narrowing the digital divide. We are all learning to live with the new reality created by these challenges that continue to cause broader concerns about peace and prosperity for all. In order to overcome the challenges being faced, society needs to find new and innovative ways to carry out its activities and meet its requirements. This will be the collective effort of all the elements of society be it the people, Government, businesses, social sector, etc. Therefore, business enterprises need to carry out their business in a more responsible manner by inculcating practices which are environment friendly and oriented towards the welfare of society. In the long run, the entities which will imbibe the best ESG principles in their businesses will survive and will be successful, as they will be considered more credible and reliable. Resilience allows us to navigate through tough times and seize the moment. It is what has helped our company to cope with and emerge stronger from major international economic and geopolitical crises. Our total energy consumption fell by almost 7% in 2023, which is due to our implementation of energy efficiency measures. Under Company's CSR initiatives, it has done a lot of work for the benefit of society, particularly in the field of education and health for the underprivileged. It is common knowledge that the last decade marked the onset of ESG-related regulations and in the next decade, ESG will take center stage. With this emphasis on protecting the environment, community development, taking care of the health, safety, and wellbeing of its emphasis on protecting the environment. |

We engage with key stakeholder groups to understand their perspectives and cater to their needs. These ongoing engagements help us identify and monitor key economic, environmental, and social trends that can be incorporated into our overall business strategy. At CONCOR, the stakeholder engagement mechanism is a key driving force towards strengthening and diversifying the stakeholder relationship, which further facilitates the identification of key material issues impacting the Company's growth. The stakeholder engagement led to the prioritization of material issues, mapping of the risks relevant to each material topic, and development of consequent risk mitigation steps. The primary outcome of the stakeholder engagement exercise resulted in the identification and prioritization of material issues relevant to environmental, social, governance, and economic aspects. The identified material issues were presented to the highest governing member and the Board for their feedback and guidance on strategizing the sustainable growth model of the Company. As part of the Company's efforts to continually engage with internal and external stakeholder groups for the identification of key material issues impacting them, the stakeholder engagement exercise undergoes periodic review. | Yes, CONCOR has always maintained a regular and proactive engagement with the Company's key stakeholders, allowing it to effectively work on its ESG strategies and be transparent about the outcomes. In response to current regulations and interactions with stakeholders, the Company performs periodic evaluations to update and reissue policies as needed.  CONCOR always consciously acts as a responsible organization and engages with the marginalized and vulnerable sections of society. Our major engagement channels are with local communities and other stakeholders like SMEs, and MSMEs through our CSR interventions. We engage with them frequently through need assessment and other participatory methods to understand their needs and the impact of our interventions. For more details please refer to the |
